Copy a Test from one Moodle Class to Another

1. Go to the class into which you want to bring the quiz.
2. Click the Import link in the Course Administration menu.
3. Select the course that contains the test you want to import.

4. Click Continue.

5. Select Include activities and resources and Include question bank.

6. Click Next.

7. To the right of “Select,” choose None.
8. Check the section the test is in, and check the test.

9. Scroll to the bottom of the screen and click Next. The next screen just confirms the items you are moving over with green check marks, everything else has red Xs.

10. Scroll to the bottom and click Perform Import. The selected items will appear in your course. (You may need to rename the content section the test is in...sometimes the section name will transfer over.)
